On Friday, DEC 8, 2023 this deposit and the final payment as tendered, become completely nonrefundable in its entirety, as airline tickets and the land side tour distribution are processed after that date.

However, if Travel Insurance was purchased and the cancellation reason is covered by the policy, then I should be able to file a claim for a refund of all monies tendered, except for the insurance premium.

TRAVEL INSURANCE INFORMATION - PILGRIMAGE MONEY REFUNDS please read carefully

Travel Insurance is a common way to protect an investment to go to the Holy Land. Insurance companies are happy to provide coverage for a fee. Some people take advantage of it, others do not. Each must decide the risk they wish to bear on this issue. Travel Insurance can be purchased any time, including just before flight time - however, pre-existing conditions are only covered when purchased at the time of tendering the deposit. Travel Insurance premiums are never refundable, even if the deposits are refundable, because coverage begins when you tender the premium.

Your deposit is refundable (except for \$350 cancellation fee), even without insurance until December 8, 2023.

Pre-existing Conditions - If you have a pre-existing condition that presently permits you to travel, but that with time gets worse and prevents your travel, you will have refundable to you, whatever portion of your payments is covered by insurance. For Pre-existing conditions coverage, *you must purchase travel insurance within 13 days of tendering the first deposit.* This is a fairly standard rule. If you elect to obtain insurance later, then all new conditions are covered but not any pre-existing ones.

Refundable Deposit (except for \$350) until close of business Friday, DEC 8,2023 -Until then, you can cancel for any reason, or no reason at all. Ask for your money back and you will receive all of the Deposit, minus the \$350 cancellation fee. Remember, that travel insurance premiums are not refundable, so those monies don't come back. However, an insured person might be able to file a claim to recover the cancellation fee, if cancellation was for an insurance covered reason.

Because the insurance premium is not refundable and costs about the same as the cancellation fee, some people who aren't worried about pre-existing conditions will wait to buy Travel Insurance just prior to when they tender the final payment.

After DEC 8,2023 - After that date, your money becomes 100% distributed to the trip, and if you wish any portion of it back for any reason - the only method by which you can receive it is by filing a Travel Insurance Claim. If you don't have Travel Insurance, all your money is forfeited if you cancel or fail to go.

Standard Provisions - The above is very standard for group travel to international destinations. However, it is possible that you can negotiate something different with an insurance company on your own.

Don't simply rely on what is written above, as each situation requires its own approach to insurance. Please ask all your questions regarding this topic directly to the Altour Travel when you register.
